

REAPPEARANCE OF PINK BOLL WORM SERIOUS MENACE

Drastic Preventive Measures Urged to Overcome the Threatened Serious Injury to Production of Cotton.

WASHINGTON, April 6.—Reappearance of the pink boll worm in Texas and discovery of the insect in Louisiana present the most serious situation which has ever confronted the cotton industry of the United States, according to experts of the department of agriculture. Unless preventive measures are immediately taken, a review of the situation issued today said, the boll worm will become a permanent and serious limiting factor in the production of cotton.

The drastic quarantine now being enforced in Louisiana gives hope for eradication of the pest in that section, the review said, but the "unfortunate result" of the resumption of cotton growing in Texas districts where the boll worm has become entrenched threatens to undo the work of stamping out the destroyer.

As a result of the failure of the state of Texas to carry out the program of control which had been promised, if the insect should reappear, the review stated, "a new and very serious phase of the situation developed." Success now is the delay in Texas in establishing noncotton zones for the infected areas, a delay which already has resulted in the planting of considerable areas in cotton. Destruction of this cotton later on, if authorized by the state, will simply mean that much great cost.

The statement added the department has urged from the beginning that the planters of the invaded district in the interests of the state as a whole steps should be taken by the state to reimburse them for their net losses.

"The strongest possible emphasis," it says, "has been placed upon the fact that the extermination of the insect in Texas and Louisiana is absolutely contingent on the prohibition of the growth of cotton in infected areas. The growth of cotton under restriction or other methods of control will simply mean the perhaps slower but no less certain ultimate spread of the pest."

Do You Hear Him Knocking?

He knocks for the LAST TIME some day. Will this be YOUR last opportunity? Come to the revival tonight at Union Avenue Methodist church and be saved. This great meeting is still FOR YOU.

NO SUMMER SCHOOL AT BLUE MOUNTAIN

BLUE MOUNTAIN, Miss., April 6. (Sp.)—There will be no summer school here during this vacation, according to President W. T. Lowrey of Blue Mountain college, the director of the normal by appointment of Prof. W. F. Bond, state superintendent of education of Mississippi. President Lowrey gives as his reason for not running the summer school for 1920 the fact that he has his hands full of work superintending the reconstruction work on the plant of Blue Mountain college which recently passed into the possession of the Baptists of Mississippi.

PROTEST WITHDRAWAL OF TRAFFIC SERVICE

MERIDIAN, Miss., April 6. (Sp.)—C. W. Hayward of the Meridian traffic bureau, accompanied by representatives from other business interests, will appear in response to summons before the state railroad commission in Jackson Tuesday to oppose the proposal of the Gulf, Mobile & Northern railroad to withdraw from handling freight between Meridian, Laurel, Ellenville and Hattiesburg. Shipments from here are made over the Meridian & Memphis, a branch of the G. M. & N.

FARM BRINGS \$110,000.

BRISTOL, Tenn., April 6. (Sp.)—One of the biggest real estate deals to take place in Carter county occurred recently, when the large farm owned by Floyd C. Ward, near Elizabethton, was sold by the Interstate Land Auction company, of this city. The land was sold in several tracts, and the total amount realized from the sale amounted to about \$110,000. This huge farm formerly belonged to Mayor A. D. Reynolds, of this city, and Mr. Ward, who was the owner of this farm, came from Wautauga county, N. C., about a year ago when he purchased the Stover farm on the Wautauga river, which was at the time owned by Col. Daniel Stover, a son-in-law of President Andrew Jackson.

LABOR MEN ORGANIZE.

CHARLESTON, W. Va., April 6.—A political organization that will be "a model of thoroughness and effectiveness" is being perfected for the coming election by the West Virginia Federation of Labor, according to the campaign plans made public here today by C. F. Keeney, district president of the United Mine Workers.

The organization will function in every political subdivision of the state from the congressional district to the precinct, he said. In the precinct, and there will be a "woman for every precinct, armed with a camera, to obtain pictorial proof of any questionable performance about the polls."

6 STILL, 6 MEN. CAPTURED SUNDAY IN TATE COUNTY

SENATOBIA, Miss., April 6. (Sp.)—Six illicit stills and six alleged moonshiners in one night is the record of Sheriff R. D. Williams and his corps of deputies. Just as the sun rose over the hills Monday the sheriff and his deputies drove in from the western part of the county with six stills, six alleged moonshiners, 12 barrels of mash and enough of the finished product for evidence. And this was the second capture in Tate county in the past fortnight. The first "catch" of the sheriff was made up entirely of white folks. The last one was altogether of the African strain. Sunday was the day set apart by the alleged moonshiners as the day for the "run." One of them was a preacher, Joe Jones. He acknowledged that he always filled his regular appointments on Sunday morning and on Sunday afternoon, the mash being just right, made a little for the stomach's sake. The mash brought in

NAME "BAYER" ON GENUINE ASPIRIN

For Toothache, Neuralgia, Pain, Colds, Headache!

You want relief—quickly and safely! Then insist on "Bayer Tablets of Aspirin," stamped with the "Bayer Cross." The name "Bayer" means you are getting genuine Aspirin prescribed by physicians for over 18 years, and proved safe by millions of people.

For a few cents you can get a handy tin box of genuine "Bayer Tablets of Aspirin," containing twelve tablets. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoacetic-acidester of Salicylicacid.

by the sheriff, corn meal, shorts and sorghum molasses, produces an aromatic blend that brings to memory the golden days of yore when McBrier, Burbon and Four Roses held a high place in the hearts of every countryman.

The stills used by the parties, although crude and homemade, were "getting results." A ten-gallon lard can, 39 feet of water pipe and a few feet of rubber hose and a trough made out of two planks, comprised the entire outfit. A gallon or two a day was being run from these stills. Some going for home consumption and some being put on the market.

CONSIDER ARMY BILL.

WASHINGTON, April 6.—Consideration of the army bill was continued today by the senate with opponents of universal military training prepared to launch a vigorous fight against that provision of the measure.

Chairman Wadsworth, of the military committee, completed his explanation of the bill yesterday and the measure was to be read today with general debate to follow.

PISTOL WOUND FATAL.

MERIDIAN, Miss., April 6. (Sp.)—Mrs. Lucy A. Clark, 61, who, several

weeks ago was accidentally shot through the body when a pistol exploded in the hands of her grandson, Saturday afternoon. The funeral took place Sunday.

CHIROPRACTIC FOR SPRING FEVER

As is well known by all the blood becomes thicker in winter because of the habit of most people in wearing heavy clothing, and thus smothering the sweat pores. And if the eliminating organs of our body are not working properly, they are not capable of carrying off the foreign matter. With this in the blood, we feel this "spring fever." Adjustments from your local Chiropractor will let Nature go to work and eliminate this foreign matter. The blood is under direct control of the limiting organs, the bowels, kidneys, liver, and lungs, and they in turn are under control of the nerves which emit from the spinal cord. If there is an impingement on these nerves, due to subluxated vertebrae of the spine, the organs cannot function properly. The Chiropractor's business is to adjust these, relieving the pressure. Consultation and Spinal Analysis Free, at the office.
